docufide sender™

FOR HIGHER EDUCATION
Deliver, Track, Report

Docufide® Sender provides a web-based (SaaS) solution for institutions to deliver, track, and report on the sending of transcripts and related admissions documents. The solution eliminates the costly and time-consuming steps of fulfilling student requests for transcripts, allowing schools to replace manual and paper-based processes, including payment collection. It brings transcript services completely online for significant long-term ROI.

Simplify & Integrate

Fully secure and FERPA-compliant, the solution enables easy-to-use document transmission from the Docufide web interface to any destination worldwide. It can be integrated with an existing Student Information System (SIS), Enterprise Content Management (ECM), or Customer Relationship Management (CRM) system – for institutions wanting a fully automated workflow.

Join the Docufide Network

Trusted by thousands of postsecondary institutions from community colleges to large universities and career colleges, Docufide Sender is the solution of choice for rapid, reliable delivery of online education credentials.

The Docufide by Parchment Platform

Docufide Sender is a key component of Docufide® by Parchment, the leading transcript exchange and intelligence platform. The Docufide by Parchment platform connects senders and receivers, enabling the secure, rapid exchange of millions of electronic transcripts and other student records among nearly 9,000 schools and universities, eight state education agencies, and hundreds of thousands of individuals.

Choose Docufide Sender to:

- Automate transcript delivery services in an online environment.

- Eliminate costly and time-consuming processes for fulfilling student transcript requests.

- Expedite existing workflows by integrating the transcript request process into your SIS.

- Analyze student data and trends to enhance college and career progression.

- Ensure comprehensive data security throughout the transcript lifecycle.

The Leading Transcript Exchange & Intelligence Platform

Docufide Sender streamlines the transcript request and release process for you and your students:

- Configuration options include request only, request and delivery, or delivery only
- Fully secure and FERPA-compliant delivery to any recipient globally
- Comprehensive tracking and reporting
- Support for capture and transmission of surcharges for student and alumni requests
- Easy-to-use self-service request and tracking interface for students and alumni
- Integration with your existing student portal for single sign-on access to Docufide Sender
- Upload of supplemental documents to be delivered with transcripts
- Comprehensive email notifications throughout the delivery process, in addition to online status reporting

You control the transcript request and release process:

- Configuration options that support a registrar-controlled approval interface within Docufide Sender or a fully automated workflow that integrates with your SIS
- Role-based security to define access levels by user groups
- Personalization options that include your signature and seal/logo, as well as a transcript key on delivered transcripts
- Email notifications when student-initiated requests are pending action by your institution
- Institutional analytics that are specific to key stakeholders

Rely on seamless, secure data flow from your school to the Docufide datacenter:

- Integrated or proprietary capture of education records and ancillary data in your existing format and SIS. Both options are non-invasive and do not require the purchase or maintenance of new hardware to implement
- To ensure security, documents are transmitted to the Docufide data center via an HTTPS connection in an encrypted format
- Electronic transfer of all documents received through Docufide Sender electronically or on security paper, reducing delivery costs, while supporting delivery to any recipient worldwide
- Verification of credentials for all institutions registered with the Docufide network, ensuring that recipients are recognized educational institutions

Gain valuable insight into student trends by transforming academic transcripts into credentials data

About Parchment Inc.

Parchment's mission is to unleash education credentials by unlocking the critical data they embody. A credentials data company, Parchment works with institutions and corporations around the world helping people collect, promote, and share their education credentials in simple and secure ways. At Parchment.com, students can research colleges and discover their chances of admission, see how they compare with peers, get college recommendations, and send official transcripts when they are ready to apply. The Company's Software-as-a-Service (SaaS) offering, Docufide® by Parchment™, is the leading transcript exchange and intelligence platform. The solution enables the secure, rapid exchange of millions of electronic transcripts and other student records among nearly 9,000 schools and universities, eight state education agencies, and hundreds of thousands of individuals. Founded in 2003, Parchment Inc. is a venture-backed company headquartered in Scottsdale, Arizona with offices in Roseville, California.
